

AND HERE WE ARE ON OCTOBER 22nd, 2013, SAINT-ELODIE !

Today in October 22nd, 2013, day of Sainte-Elodie, always NOTHING ! More telephone communications, more "personally", more mails, more exchanges with Elodie LAMBINET, my daughter, since January 17th, 2008 !

And here is how the French Justice takes out of a file without drums nor trumpets : since July 11th, 2013, Anniversary of Elodie : " **closed File** " ! Indeed, this day, Elodie becomes major, and the County Court of Nanterre (92) enclosed this file ... by a Judgment of this date. In the meantime, more news of Elodie who over the years was "reformatted" and does not remember more than she has a Dad ... And after we wonder that nothing more " do not turn circle " !

While waiting for the continuation, because there is always a continuation, in a sense or in the other one, this Dad of Elodie pursues his " **opaque activities** " (op.cit. French Justice) which the Reader can realize thanks to Web sites mentioned below, and particularly the Web site : <http://www.omggwo.org/> . "By clicking" twice the small map chosen in the Menu " Geographical Areas " in one of the Geographical Zones, then two other "clicks" the big map of the selected country, the warned Reader can consult a Press Review 24H / 24H and 7D / 7D because updated permanently every day for each of the countries !

Fortunately that its " activities are opaque " because imagine if they had been "shady " or " glaucous " ! (The Statutes, even Balance Sheets, are on the Web Sites of each of the " opaque structures "). And we always evoked the privileged domain of the Dad of Elodie, that is the "Research", the archetypal "felted" domain ...: it will be for next time !
